

# CloudSecure

---

Safeguard your IT infrastructure and digital assets with our fully managed, cloud-based SOCaaS (Security Operations Center as-a-Service) solution.

WatServ 

# Enhance your cybersecurity posture to detect threats, mitigate business impact and prevent future attacks.

Digital transformation and cloud adoption is changing the way businesses address cyber risk. CloudSecure is a SOC 2 Type II certified, managed cybersecurity solution to help organizations meet these changing needs.

Trust your IT infrastructure and digital assets to our highly-skilled team of cybersecurity professionals to monitor, analyze and mitigate security events and handle real-time incident identification, escalation and response. Immediately improve your cybersecurity posture with our industry grade SOCaaS (Security Operations Center-as-a-Service) so that you can focus on growing your business. WatServ uses leading edge technology tools and platforms to ensure that your security posture is always up-to-date.

## Features

### Security Information & Event Management (SIEM)

# Fully managed and monitored cloud based cybersecurity services, 24x7x365.

## What's Included

WatServ provides in-depth cybersecurity expertise and capabilities including advanced technology, managed services and support as part of the CloudSecure solution.

## Managed Security Operations

### Cloud Security Operations Center-as-a-Service

Leverage our highly-skilled team of cybersecurity professionals to monitor, analyze and mitigate security events and handle real-time incident identification, escalation and response.

### Continuous security monitoring

Benefit from continuous monitoring of security posture and data points to ensure efficient tactical remediation efforts.

### Security event management

Gain visibility into potential security-relevant events, reduce blind spots and improve security operations efforts.

### Security analytics

Analyze security-relevant data holistically to understand security trends and define strategic security measures.

### Advanced threat detection

Enjoy fast and accurate detection of sophisticated attacks attempting to steal sensitive corporate data or cause damage.

### Managed endpoint protection

Benefit from monitoring and isolation of endpoint attacks using our centrally managed endpoint protection. Stop attacks early before harm is done.

### Automated threat mitigation

Rely on WatServ to take corrective actions and add prevention rules or other remedies in response to identified threats. This can be achieved with or without human interactions.

### Fee structure

Flexible fee structures for the consultation and implementation services to meet your business needs. Monthly fee for the ongoing managed security services.

**WatServ is SOC 2 certified for its CloudOps and CloudSecure Managed Services, based on an audit of its Type II report.**

Developed by the American Institute of Certified Public Accountants (AICPA), SOC 2 is an auditing procedure that ensures service organizations manage customer data using controls for security, availability, processing integrity, confidentiality and privacy. At WatServ, we are committed to achieving operational effectiveness and providing assurance to our customers.

# WatServ

WatServ is an IT solutions provider helping clients digitally transform their businesses through cloud technologies and services.
