

Managed Services for Azure Virtual Desktop

Optimize costs and improve productivity with the best desktop and application virtualization experience for your team, delivered in the cloud.

WatServ 

Managed Services for Azure Virtual Desktop

Remote work has introduced additional IT complexities for application and data access.

The workforce is becoming increasingly hybrid and remote work enablement is no longer optional.

Your employees want to be productive regardless of their physical location – but offering this flexibility comes with new security and control requirements.

With WatServ's Managed Services for Azure Virtual Desktop (AVD), you can provide a consistent and native user experience without jeopardizing security. Our managed services are designed to give you a practical and worry-free experience for your ongoing and growing Azure Virtual Desktop (AVD) environment, ensuring that your workforce can be productive and secure, wherever they are.

Windows Virtual Desktop
Advanced Specialization

WatServ is a
Microsoft Advanced Specialization
partner for implementing
Azure Virtual Desktop.

BENEFITS OF AZURE VIRTUAL DESKTOP

Deliver Windows 11 Desktops & Apps Virtually Anywhere

Provide employees with the best experience optimized for Windows 11 & Microsoft 365.

Built-in intelligent security

Help keep your application and data secure and compliant by proactively detecting threats and taking remedial action.

Deploy & scale in minutes

Simplify the deployment and management of your infrastructure and scale quickly based on your needs.

Reduce costs using existing licenses

Use existing eligible licenses to reduce costs with a modern, cloud-based virtual desktop infrastructure (VDI) and only pay for what you use.

Secure Workspace Essentials

Empower your workforce to be productive and secure, wherever they are.
